Technical Skills Courses

Abrasive Wheels Safety 1 day

The WATA route to success

The Provision and the Use of Work Equipment Regulations 1998 requires those people who mount abrasive wheels on grinding machines to be provided with certain information and training. This course is designed to give delegates such information and training. Please bring safety shoes.

What does the course cover?

- Hazards and risks arising from the use of abrasive wheels and precautions which should be observed
- Methods of marking abrasive wheels as to type, size and maximum operating speed
- Methods of storing, handling and transporting abrasive wheels
- The functions of all components used with abrasive wheels, including flanges, washers, bushes and nuts used in mounting
- How to assemble abrasive wheels correctly to make sure they are properly balanced and fit for use
- Guarding
- The proper method of dressing an abrasive wheel
- The adjustment of the rest of an abrasive wheel
- The use of suitable personnel protective equipment
- The requirements of the law relating to abrasive wheels
- Advisory literature relating to the mounting of abrasive wheels

Who is the course suitable for?

This course is designed to give delegates the required training to safely use abrasive wheels.

Course Dates

2011: 26 Sept; 12 Dec

2012: 23 Jan; 2 Apr; 11 Jun; 3 Sep; 3 Dec

Course Fees: £125 + VAT per delegate

Including lunch, refreshments and course handouts, plus Safety in the use of Abrasive Wheels

In-company courses by arrangement.
