Environmental Management

Environmental Noise Assessment & Management – 3 Days

The WATA route to success

This is a three-day course which is intended for people involved in environmental noise measurement or control and anyone involved in Integrated Pollution Prevention and Control (IPPC) licensing or ISO 14001 approval.

The course provides the delegates with a detailed insight into environmental noise specification, noise measurement and the control of noise emissions affecting the environment. Delegates will receive a WATA Certificate on successful completion of a written assessment.

What does the course cover?

- Noise characterisation and specification parameters
- Noise units and standards
- Sound propagation and materials
- Calculation procedures and examples
- Environmental noise legislation and standards
- Failings of BS4142
- Noise Measurement Instrumentation

Who is the course suitable for?

Safety officers/advisors, managers and others within the organisation who effectively manage the environmental noise measurement.

Course Dates

2011: 4 – 6 Oct

2012: 7 - 9 Feb; 19 - 21 Jun;
16 - 18 Oct

Course Fees: £610 + VAT per delegate

Course fee includes course materials, lunch and refreshments.

In-company courses by arrangement.

Duration:

3 days (9:15 am to 4:30 pm approximately - please arrive 15 minutes before the course is due to commence)

We provide training in a relaxed atmosphere at our training centre, which is located in Huntingdon, Cambridgeshire, with easy access to road, rail and airport links.
