

WATA Knows... and you can too!

Technical Skills Courses

Hydraulic Training – 5 Days

The WATA route to success

A highly practical five-day course, which deals with the essential maintenance aspects of hydraulic systems. Please bring safety shoes.

What does the course cover?

- Fundamentals principles
- Hydraulic fluids, storage and conditioning
- Fluid conductors
- Graphical symbols and circuit diagrams
- Hydraulic pumps
- Pressure, directional and volume control
- Actuators, Seals and Packing
- Hydraulic accumulators, circuits and practical exercises
- Maintenance and fault finding

Who is the course suitable for?

Personnel in the mechanical industry who have no previous knowledge or experience in the maintenance of hydraulic systems. This course is also recommended as part of the underpinning knowledge requirements of an NVQ in mechanical skills.

Course Dates

2011: 31 Oct – 4 Nov

2012: 30 Jan – 3 Feb; 28 May – 1 Jun;
29 Oct – 2 Nov

Course Fees: £625 + VAT per delegate

Including lunch, refreshments and course handouts

In-company courses by arrangement.

Duration:

5 days (9:00 am to 4.00 pm approximately - please arrive 15 minutes before the course is due to commence)

We provide training in a relaxed atmosphere at our training centre, which is located in Huntingdon, Cambridgeshire
