Health and Safety Courses

Introduction to Behavioural Safety – 1 Day

What does the course cover?

The course looks at the multiple causes of most accidents in the workplace and in particular the role of behaviour and how this behaviour can be influenced.

The course examines the development of a positive health and safety culture and the role of behavioural safety initiatives in such an environment.

Delegates will consider how such a programme can be implemented and maintained, some of the potential benefits and the pitfalls to avoid.

Who is the course suitable for?

The course is designed primarily for safety practitioners or those with existing training and experience in safety management.
