

WATA Knows... and you can too!

Health and Safety Courses

Safety in the Laboratory – 1 Day

The WATA route to success

What does the course cover?

An overview of laboratory safety including risk assessment, chemical and bio-safety. This is an excellent introduction to this subject.

This course will look control measures and procedures suitable for safe working with:

- Chemicals
- Biological Agents
- Radioactivity (ionising and non-ionising)
- Waste Disposal
- Personal Protective Equipment (PPE)
- Local Exhaust Ventilation (LEV)
- Good Laboratory Practice (GLP)
- Laboratory Equipment, Gases and Explosive Atmospheres
- Safety Management
- Open forum discussion on laboratory safety issues

This course covers both the legislation and the practical aspects of safety within laboratories.

Who is the course suitable for?

Laboratory personnel, supervisors and managers.
