Health and Safety Courses

Working at Height Regulations – 1 Day

The WATA route to success

Course Summary

In 2007-2008 falls from height accounted for 34 fatal accidents at work and nearly 3200 major injuries. They remain the single biggest cause of workplace deaths and one of the main causes of major injury.

This course covers the requirements of the Work at Height Regulations and is ideal for employers, the self-employed and anyone who works at height. It tells you what you need to do to comply with the Work at Height Regulations 2005. The Regulations apply to all work at height where there is a risk of a fall liable to cause personal injury.

What does the course cover?

- What is work at height?
- Why are these rules important?
- Do the rules apply to you?
- What you must do as an employer
- Duty holders' responsibilities
- Inspections
- Equipment Types

Who is the course suitable for?

Managers. Safety Advisors. Supervisors and others.
